## IN THE BASEBALL RACE.

NEW-YORK REPOSES IN NINTH PLACE.

WEEDING OUT THE DISCORDANT ELEMENT OF

THE TEAM-THE RECORDS. As the baseball season wanes, the chances of the New-Fork or Brooklyn team securing an honorable position

the championship struggle grows beautifully less. The Bridegrooms' chances are, of course, much bet the Gants', but there is little hope for either. The week will end the Western teams' season in the East, and the Cleveland leaders are likely to get home with a lead which will enable them to remain in front to the end.

P. T. Powers, New-York's manager, seems determined to get a winning team for this city if he has to try a new piaper overy day. It was thought that the release of Bassett and Gore would secure harmony in the team, and it did for a while. Lately, however, the old bickerings have broken out afresh and the management recognized that further heroic measures were necessary. O'Rourke was consequently released on Saturday, and if Knowles, the new man secured, can cover third base, Denny Lyons are also be allowed to so today. There are one or two T. Powers, New-York's manager, seems determined also be allowed to go to-day. There are one or two may also be allowed so go to the driver of the or the other players who hang on by a thread, and further indifferent work on their part will hasten their divorce from

club, when younger players are secured to strengthen the team. The veterans look upon the youngsters as usurpers, and any applause the new men win rankles in the veterans' breasts for days. Then the comparisons which are naturally made between the young and the older men helps to fan the blaze and makes team-work an impossibility. Manager Powers is determined to east out this disturbing element, no matter what the cost, and his efforts will meet the approval of every honest lover of baseball. Powers will at least have some material out of which a good team can be built next year. With the old timber it would have been impossible to erect anything creditable.

New-York insists upon having a team which can at least win a majority of the games played on home grounds. Last week the local team won only three out of eight games played, and the steady decrease in attendance was the best work during the week, each winning five and losing two games. The Cleveland, Philadelphia and Brooklyn teams each won four out of the six games played. The St. Louis team took the booby prize, winning only one game out of six. The week's record follows: Won. In the race for the pennant, the sprightly Clevelands continue to set a lively pace and are del g almost as good work on the present tour as they recently did on home grounds. After the present week, the leaders will only have the Western teams to meet, and unless the unexpected happens, they ought to win rather easily.

The Pittsburg team, since Terry was secured, has made a fine record and the Pirates have gamely worked themselves from a lowly position up into second place. The Boston team is only a few points behind, while the Brocklyn and Philadelphia teams are tied for fourth place. The New-York team reposes in ninth position. ## CLAMBAKE AT MORRIS PARK

A large number of hungry turfmen partook of a Babcock clambake at Morris Park yesterday. Mr. Morris was there with Inspector Dave Morris and a party of friends. Mayor Grant sent a letter of regret So did Governor Roswell P. Flower and Richard Croker. Colonel Daniels, of New-Jersey, when the tide is out, was at the head of a lively table, at which sat Roland Reed (for whom David Pulsifer has named a colt by King Alfenso-Virgalina); "Al" Powell, Mr. Pulsifer and others. James Villepigne was mainly responsible for the bake and for its success. Bab's sauce and all its accompaniments were hugely enjoyed. Joy was unconfined and so was Bab, who looked ten years too young. About 140 guests sat down to the feast. Villepigue will give another bake before the Morris Park meeting. Some of the guests yesterday were Mrs. Villepigue, Mrs. Cooper, Mrs. de Ryther, Miss Roussean, the well-known singer; Signor Tagliapietra, the bary-tone; Dr. Hasbrouck, Patti Clark, of the Coney Island Jockey Club; W. L. Powers, the turf accountant, and Fred. Cooper.

SEEKING FOR EISENSTADT'S MURDEREE

BELIEF THAT METRASSKY WAS THE ONLY ONL CONNECTED WITH THE AFFAIR.

The police are still looking for Samuel Metrassky. otherwise known as Solomon, who is believed to have been concerned in the murder of Lazarus Eisenstati. the rich Russian Hebrew, of New-Utrecht, L. I. They have found a letter in Metrassky's room at No. 100 East Broadway, New-York. The letter translated

reads as follows:

America, September 1.

My Dear Father and Mother: 1 wish to excuse me that I have not sent you a letter for five months. I am in N. Y. four months from England. When I left London I got acquainted with a man come with me on our ship to America. A rich man; he had 50,000 rubles; he took me along because I understood a little English. I am travelling with him for three months. He is looking to buy a farm. The second week he bought a farm, and cost 35,000 rubles. I expect to get 3,000 rubles commission. I got no more to write to you from your son. Wish you altern my heart, Samuel Metrassky. I wish you would write me a letter as soon as you get this. I cannot give you my address. I don't know where I am going to stay two weeks. I will send you word where I am going to stay. I wish you good health and good luck. From your son.

SAMUEL METRASSKY.

The police believe that Metrassky, at the time of

The police believe that Metrassky, at the time of writing this letter, had determined to rob Eisenstadt. They now are convinced that the other men who had been suspected are entirely innocent. They found Charles Puditzky, a real estate dealer, who had some dealings with the dead man, on Saturday night, at So. 53 Broomest. New York. He told a perfectly straight story, and the police have no reason to believe he had anything to do with the murder.

The men who are engaged in planting the good seed which is to bear abundant fruit in November have no cause for discouragement. On the other hand, all indications point to a great harvest of Republican votes. The meeting audiences are imbued with an enthus asm which is as-tonishing to those who have not been in the habit of going to them. Senator Calvin S. The coming week is going to be another hustlin time for the Republicans. A splendid series of massmeetings, banner-raisings and other campaign demonstrations has been announced. The Republican part workers are in high spirits and are intent on forcing the fighting. The Democrats, on the other hand, are already tited and disheartened. They can see no omens of victory in the political horizon, while all the usual electoral signs auger success for Harrison and

AN ELUSIVE RAINBOW IN ILLINOIS. THE DEMOCRATS IN THEIR EXTREMITY BRING FORTH A DISGRACED LEADER.

Chicago, Sept. 11 (Special).-The Western Branch National Campuign Committee has selected as its political secretary the man who directed the Democratic State Committee during the famous Leman-Brand election frauds, which resulted in the sending of "Joe" Mackin to the penitentlary for five years. This man is William J. Mize. After the Mackin case, Mize retired from politics until now, and his restoration to a prominent party position has ccasioned much comment.

The Democrats realize that they will have to work hard to make a respectable showing in this Reports received at headquarters at the Sherman House, to which National Committeeman Cable ha had access, indicate that the party will lose several ngressmen in this State in November. The nominees are all chosen now, and calculations can be made Mr. Durbocow will doubtless be beaten in the 111d District by Mr. MacMillan, Captain Vocke is ex pected to succeed General Newberry in the 1Vth District Mr. Childs, it is believed, will have t large majority over Lewis Steward in the VIIIth strict. Ex-Senator Wheeler is confident of winning back the Pontiac District for the Republican B. F. Marsh, it is thought, will beat Truman Plantz in the Rock Island District by 2,000 majority. Funk will have an easy victory over Owen Scott is the Bloomington District, and Mr. Cannon is making a winning fight in the XVth District, and the report are favorable to Captain Burton, who is making hard fight against Fithian in the XVIth District There is hardly a doubt about the election of George Willets and Richard Yates for Congressmen at large. This will leave the Democrats only eight Illinois' delegation of twenty-two Congressmen of Illinois' delegation of twenty-two Congressment.

The Democrats are also despondent about the General Assembly. They yet hope to capture the Senats, but they are not sanguine as to this control of the House. They admit that they will lose meniters in the 1st, Ild and IIId Districts of Chicago, Lossos are probable in some of the rural districts as. Fa Umore, Sept. 11 (Special).-Senator Gorman ha given orders to the Democratic Committee to concentrate the efforts of the party in the Vih and Vith Dis tricts, which are more than likely to go Republican The Democratic candidates have two active and popular opponents in these districts. In the 1st District, Mr. Ruffner, the Republican candidate, has opened a lively campaign. The withdrawal of Congressman Henry Page, to accept a Judgeship, weakens the Democratic chances, as Page was the most popular Democrate on the Eastern shore. There is a hig fight among the Democratic leaders about the nomination in that district, with the chances in favor of ex-Gov-In that district, with the chances in favor of ex-Governor Jackson, who was cut out of the Senatorship last spring, and whom Gorman wants to concillate. The IId District Republicans opened the campaign yesterday. George A. HUDSON COUNTY POLITICS.

REPUBLICANS JUBILANT AND THE DEMOCRACY DISORGANIZED.

John P. Landrine, president of the Hudson County Republican League, has been presented with a hand-some Harrison and Reid badge, the gift of Seigfried Hammerschlag. It is made of American silk and cellulold, crossed by a bar of American tin, and was made in an American factory by American hands.

The Democrats of the Vth As-embly District of Jersey City are in a quandary. Assemblyman Heaney would be entitled to a renomination, but the result is uncertain. Added to this, the record of the last Legislature makes it doubtful whether any member of that body could be re-elected. The managers have about decided not to attempt to juggle with old names, but to select a new candidate in each district. Just now they are trying to induce Edward Hoos, a wealthy Germa - American furniture dealer, to throw his money and influence into the pool. As Mr. Hoos is a recognized forlorn-hope leader for the Democrats of his dis-trict, the fact that he can have the nomination if he will take it is regarded as equivalent to a confession by the Democratic ring that they have no hope of carrying There is the same doubt about the Senatorial situation

Mr. Robert S. Hudspeth, who took the unexpired term that Congressman McDonald and Mr. William Stuhr played shuttlecock with during two sessions, is enittled to the regular Democratic nomination now, but the leaders are afraid to give it to him because of the element of doubt that has entered into the can-vaes since Mayor Wanser carried the charter election in Jersey City by an overwhelming majority. There are also two other influences working against Mr Hudspeth. The respectable public does not care to see him nominated, because of his close connection with the ballot-box stuffers as their trusted counsel and defender, while the leaders object to him because of his open admission that there was a conspiracy in the Hudson County elections of 1850 to the extent of filling the ballot-boxes with the so-called "joker tickets. stopped right there, but no one believes him, and the statement is generally accepted as a confession of all the frauds. The leaders saw the force of Mr. Hudspeth's blunder before he had closed his statement, and they have not forgiven him. The many gers have not yet made up their minds whether to nominate Mr. Hudspeth and let him take the chances, or nominate another candidate and try to recomptheir lailen fortunes by a semblance of respectability. Meanwhile the Republicans are jubliant over what is regarded as an excellent chance to repeat in the county the success that General Wanser achieved in Jercey City last April.

The Keystone Republican Club of the Vth Assembly District of Jercey City will hold an important meeting at No. 405 Grove-st., this evening.

THIRTEEN CLEVELAND PRINTERS.

A RIDICULOUS EFFORT TO ORGANIZE A LEAGUE WITH THE UNLUCKY NUMBER PRESENT. The efforts of a few Democratic office-holders start a popular anti-Republican movement among the members of Typographical Union, No. 6, fell flat yes-terday. A call for a meeting for the purpose of forming an organization of printers to oppose the union's settlement of its differences with The Tribune and everything Republican was issued a few days ago by the following Democrats: George A. Mo-Kay, Deputy Factory Inspector; Walter Thayer, Warden of the Dannemora State prison; Florence F. Don-ovan, of the State Board of Arbitration; John Francy, Assistant State Factory Inspector; Edward . Keen, a clerk in the State Labor Bureau; John N.

Bogart, a Tammany Scaler of Weights and Measures

and George G. Gutlick.

The meeting was held at 4 o'clock yesterday after noen in Coburger Hall, a barroom at No. 10 Stanton-st. Not one of the men who called the meeting appeared. The meeting was to be called to order at

The following officers were elected: James Haltigan president; Robert T. Brown, vice-president; N. D Boutelle, secretary; John Gray, assistant secretary Thomas L. Maxwell, treasurer; John F. Parday

Houtelle, secretary, John Gr., Parday, Sergoant-at-arms.

Robert T. Brown, the vice-president, is secretary of the Empire State Democratic Association and the Fourteen Club, both of Brooklyn. Houtelle is known as "Buzzy" Boutelle. He will manage the new paper called "The Printer," which will appear to-morrow and disappear on November 8. It is opposed to the "The Union Printer," the recognized organ of the

"The Union Printer," the recognized organ of the union.

The money for running the new spaper has been furnished by the Democratic National Committee. After the election of officers, it was suggested that an executive committee should be appointed. As there were only thriteen printers present, it was decided to wait a while before appointing an executive committee. Then the question of permanent headquarters came up. It was admitted that a barroom would scarcely be a proper place for the headquarters of such an important organization as the Cleveland Printers' Losque ulined to be. By this time the beer was showing its effects. Then it was openly said that the Democratic National Committee was going to provide permanent headquarters for the league. The following were appointed to make arrangements for securing permanent headquarters: B. J. Hawkes, N. D. Boutelle and Alfred Swan. At 6 o'clock the beer had disappeared and the thirteen disgusted members of the Cleveland Printers' Losque had withdrawn from Coburger Hall, discomfited at the utter failure of their plan for revolutionizing the political bellef of the intelligent printers of New-York.

ELIZABETH REPUBLICANS ACTIVELY AT WORK A fine transparency has been placed in front of the Republican headquarters at Elizabeth, and the place is now opened daily for active business. The City Executive Committee will have clubs organized in every ward of the city during the next two weeks, and preparations are being made for rousing meet-ings to be held in the upper, central and lower por-flous of the city. An enrollment of all the Republican voters of the city is to be begun at once.

CENTRAL LABOR BODIES AT ODDS.

LIVELY CONTROVERSY BETWEEN THE UNION AND THE FEDERATION.

The committee appointed last Sunday by the Central Labor Union to draft a reply to the letter of the Central Labor Federation made its report yesterday. The letter from the Central Labor Federation, which was read at the meeting of the Central Labor Union a week ago was a reply to a proposition of the latter organization looking toward an amalgamation of the two central bodies. The Federation in its letter spurned this offer, and went on to delay that the only available resource of organized. clare that the only available resource of organized labor was independent political action. It declared also that the judiclary and all branches of the Goverument were in league with capitalists and menop olists. The police were also condemned.

James P. Archibald, clinirman of the committee

appointed by the Central Labor Union to reply to the Federation, read a long letter which had been prepared by the committee. The letter was a most violent reply. It was addressed to Ernest Bochm, corresponding secretary of the Federation. To Mr. Rochm's pessimistic atterances Mr. Archibald replied in part as follows: "We are satisfied that the public conscience naturally tends to the right, and unless conscience haturally close to the rank of labor you cannot afford to reject the appeal we make. Bad and corrupt men there are no doubt existing in the judiciary of this country, and as bad existing in the judiclary of this country, and as bad and corrupt men as ever existed. But as far as it is within our province to speak of the Central Labor Union we decline to Join in your allusion to the entire police, judiclary and National Guard."

The letter was signed by Mr. Archibaid and Philip Kelly. One member of the committee of five delegates did not act and the other two refused to sign the letter. A lively discussion followed the reading of the letter. It was finally decided to have the letter printed, so that it can be discussed by every delegate next Sunday.

It was announced that the Pelham Hod-Hoisting Company had violated its agreement with Eccentric Engineers' Union No. 1. If this is true another building-trades strike is likely to be ordered.
